About Konica Minolta Business Solutions Asia
Konica Minolta Business Solutions Asia is a leader in print and enterprise content management focusing on optimisation, productivity and information sharing via its broad range of office and production printing solutions and services. Backed by strong service standards and proficient support staff, Konica Minolta has won numerous awards and recognition, including placement in the Leaders Quadrant on the Gartner 2014 Magic Quadrant for Managed Print Services (MPS) and Managed Content Services (MCS). Konica Minolta, Inc. has also been named to the Dow Jones Sustainability World Index for four years in a row. For more information, please visit: http://www.konicaminolta.sg/business/.

Our organisation is certified according to ISO 27001, ISO 9001, ISO 14001 and ISO 13485 standards.

Giving Shape to Ideas

KONICA MINOLTA

AccurioPro FluxEssential
*A Powerful, yet comprehensive solution,* to managing print workflow

AccurioPro Flux Essential is Konica Minolta's software solution for make-ready and professional print workflow automation. This formidable automated print workflow solution helps organisations to speed up workflows, ensure accuracy, and minimise costs. So your print jobs can be delivered on schedule, every time.

AccurioPro FluxEssential

Your Print Workflow
Command Console

AccurioPro Flux Essential is the solution to manage your entire print workflow easily. From one control point, you can manage everything from collecting information about each print job, to editing, processing, queue management, and production.

MAKE-READY
Templates
Colour Split
Job Editing

OUTPUT MANAGEMENT
Product-Based
Job Processing
Print Queue
Management

PRINT
Print from your fleet of digital or offset printers.

JOB COLLECTION
- Print requesters upload their requests to AccurioPro Flux Essential.
- The system automatically checks if the files are printable, highlighting any errors found.
- All relevant information is collected from requesters, including the paper, colour, size, layout, finishing, number of copies, delivery date, and despatch mode.

MAKE-READY
- **Templates:** Frequently used print settings can be saved as templates, which are then applied automatically when a corresponding print job is imported.
- **Colour split:** Operators can assign coloured and black & white pages to be printed on specific printers, optimising ink usage. Afterwards, Flux Colour Split ensures that pages are collated in the correct order.
- **Job Editor:** Adjust the details of each job, such as the paper size and weight, colour mode and finishing. Also, add or remove tab sheets, slip sheets, empty pages, and much more.
- **Real-Time Preview:** Switch between three previews (page preview, sheet preview, and list view), then make modifications to your print jobs.
- **Edit Source PDF:** Make final changes and preflighting checks to PDF files using supported applications (such as Adobe Acrobat).
- **Repeat Range Programming:** Handle large VDP jobs easily by adjusting the settings of one set, then applying these settings to remaining sets with one click.

OUTPUT MANAGEMENT
- Product-Based Job Processing: Automates the application of print settings. PostScript or PDF files are linked with stored print settings. 100 Hot Folders are included by default.
- Offline Finisher Support: Add register marks and finisher barcodes to signatures, then configure them easily.
- Print Queue Management
  - **Job Import**: Simply drag and drop, or scan.
  - **Hot Folders:** Automate the importing of jobs with hot folders.
  - **Custom Job Filters:** Manage multiple job lists easily with custom filters.
  - **Cluster Printing:** Optimise production speeds and costs, by balancing print loads with the best printer for the job.

PRINT
- Complete print jobs on your fleet of digital or offset printers, connected by AccurioPro Flux Essential.

ACCURIOPRO FLUX ESSENTIAL OPTION
An advanced raster editor that allows users to edit documents on an image/raster basis. This enables image editing operations (i.e. despeckle, deskew, brush, erase, line, fill) for single and multiple pages.
