Konica Minolta launches Smart Industrial Center in Malaysia, as part of its new Digital Manufacturing initiative and move towards Industry 4.0

Singapore, 21st June 2019 – As part of its initiatives to move toward Industrial 4.0 & to promote digital manufacturing globally, Konica Minolta has set up a new Smart Industrial Center (SIC) in its production facility in Malaysia. Smart Industrial Centre (SIC) is a new manufacturing model cluster to achieve open innovation in production activities in corporation with its suppliers. With the SIC project, Konica Minolta will focus on the use of digital technology based on automation, information and communications technology using the digital manufacturing concept, ensuring efficiency, reliability & highest quality manufactured products.

The grand opening of Malaysia Smart industry Centre (SIC) was held on 10th June 2019 & was officiated by Malaysia PM Tun Dr Mahathir. Around 1000 global leaders from government & business sector including press has gathered to witness this first of its kind new model manufacturing cluster in the country.

Smart industrial Centre opening by Malaysia PM Tun Dr Mahathir on 10th June 2019.

Mr. David Choong, Senior Manager from Konica Minolta Malaysia introducing KM "Workplace Hub", an innovative new enterprise IT centralised platform to Malaysia PM Tun Dr Mahathir during SIC opening ceremony.

KONICA MINOLTA

Digital Manufacturing Initiatives of Konica Minolta

With the global direction to move toward Industrial 4.0, Konica Minolta has brought forth new value to the manufacturing process within the supply chain through collaboration between robots and people, optimization of processes and preventive measures, leveraging artificial intelligence, big data and translating data into actionable insights with analysis and ease of sharing.
